## **Bridgepoint Strengthens Project Development Capabilities with New Advisors**

TORONTO, October 14, 2009— Mr. Frank Carnevale, CEO of Bridgepoint Group Ltd., is pleased to announce the appointments of Mr. Robert Carillo and Mr. David Turner as Senior Advisors.

Mr. Carillo is currently Vice President of a major wind developer; as well he is a corporate lawyer specializing in corporate finance and energy project development. Mr. Carillo has represented various Canadian, American and international developers in transactions for the development, construction and operation of major wind parks in North America and Overseas.

Mr. Turner brings extensive experience working with complex operational and project risks. He has worked on Brownfield, mine reclamations, water treatment and waste management projects. He spent 16 years with global risk and insurance brokerages where he managed international clients, led business and product development teams and managed both Environmental and Emerging Products groups.

“Our clients and partners require effective project development strategies and risk mitigation, and both Mr. Turner and Mr. Carillo will provide tremendous leadership and experience in this area,” commented Mr. Carnevale. “Bridgepoint has positioned itself as one of the few junior developers willing to share in project development risk, and the North American market is continuing to move in the direction of offloading risk to the private sector.”

### **About Bridgepoint Group Ltd.**

Established in 1998, Bridgepoint Group Ltd. is a leading consulting firm that specializes in business strategy and the development of sustainable energy and infrastructure in Canada and the United States.

With offices in Toronto, Ottawa, Montreal, Calgary and New York, Bridgepoint Group enables public and private sector partners with the development and operations of greenfield and brownfield energy and infrastructure opportunities in the following targeted markets: Natural Resources, Power, Utilities, Transportation, Real Estate & Buildings, Waste, and Environment.
